Pink Duchess

(Right) The large, oval pointed bud has a golden color, and this reverse tone softens and gradually becomes suffused with the clean, scintillating pink. The flowers are of true Peace form, but each 5 to 6-in. bloom has 10 to 15 more petals than its famous parent, with a shimmering, glowing luminescence that makes it visible from far away . . . the focal point in any Rose planting. The growth is strong and bushy. Covered with large, rugged foliage, the 3 to 4-ft. plant thrives vigorously in the deep South and is amazingly winter hardy in the North. Here is a large, full, fragrant Rose that blooms in abundance, the newest and richest pink of the Peace descendants. Testers throughout the country praise its exhibition possibilities, its size, productiveness and really beautiful color. (Pl. Pat. #1834.)

Available only in limited quantities

The early-morning sun particularly gives an iridescent sparkle to the glowing, radiant orange, 5 to 5½-in. blooms. The neat, orderly unfolding of the petals creates shadows in the half-open flower, making this high-centered beauty even more entrancing. Gradually the marvelous orange color spills into the center of the flower. The color varies only slightly during the eye-catching transition. 2½ to 3-ft. plants spread well and hang on firmly to the highly disease-resistant foliage. A color distinct from any other and beautiful at all times. (Pl. Pat. #1712.)

Garden Party

(Below) This spectacular new Hybrid Tea won the All-America Selections Award for 1960. Besides inheriting many of the fine characteristics of its illustrious parents, Charlotte Armstrong and Peace, it adds some desirable new qualities. The blooms are a combination of soft pastels. Rich ivory at the flower's heart gives way to creamy tones and finally to a pronounced flush of apple-blossom-pink at the outer edge of the 25 to 30 wide-flaring petals. The flower is huge, often as large or larger than Peace, yet it has a lovely long bud and marvelous open blooms. Well balanced, vigorous, free branching, Garden Party is an excellent variety that is easy to grow and will delight you for many years to come. (Pl. Pat. #1814.)

Kordes Perfecta...1959 Rose of the Year

IT'S RED! IT'S WHITE! IT'S YELLOW!

(Below) Here it is . . . a Rose so beautiful, so colorful, so fragrant, so hardy, so easy to grow, so perfect in every respect that it was overwhelmingly selected by a nation-wide test panel of 5,000 home gardeners as **THE ROSE OF THE YEAR!**

Once you see Kordes Perfecta blooming in your garden, you'll quickly understand why it was selected as the first "Rose of the Year"! What an intriguing color combination . . . it's white . . . it's red . . . it's yellow . . . it's completely different from any other Rose in existence! Basically cream-white, this magnificent new Rose is lined with red as if the edges of its petals were dipped in light carmine. This rich, warm red color spreads throughout the flower as the buds open, revealing a suffusion of yellow. All season long, this vigorous, 3-ft. plant produces an unusually large number of perfectly formed, long-lasting, fragrant, exhibition-size Roses—each one up to a full 5 in. across! Fully double, with 65 to 70 petals. Yes, here is the glorious new creation that was chosen as the outstanding new Rose of 1959. Be among the very first in your neighborhood to proudly display this fabulous 1959 ROSE OF THE YEAR. (Pl. Pat. #1604.)

Sterling Silver

Beautiful New Silver Lavender!

(Above, Right) There are many fine red, yellow, white and pink Roses in this catalog, but there's only ONE Sterling Silver! Just look at the color . . . warm, regal silver-lavender . . . as rich as its name-sake. Imagine magnificent Roses like these blooming in your garden all season long. Picture the soft, silvery color highlighting your favorite reds and pinks. As spring arrives, tight pink-lavender buds open slowly . . . stretching into glistening silvery blooms . . . each one a full 5 in. across. And the sweet fragrance that fills the air is so satisfying! The bush is medium tall and upright, vigorous and free blooming, with leathery dark green foliage. You'll love Sterling Silver in your garden, and you'll love it in your home, too . . . for its dainty form and novel color make it a "must" for any flower arranger. Originated by Mrs. Gladys Fisher of Woburn, Mass., this is the variety around which is centered the Sterling Bowl Tournament, held annually at our Festival of Roses, at the Newark Rose Garden. (Pl. Pat. #1433.)

Pink Lustre

(Right) A very large, tall-growing, cool pink Hybrid Tea. It has luxurious, high-centered flowers of exhibition size and quality, which open slowly and gracefully. The edges of the petals are a deeper pink, giving a lovely variation. The deep rose-pink, ovoid buds open easily and hold their clear clean color. Foliage is a handsome polished dark green, very uniform and disease resistant. Pink Lustre is widely used as an exhibition Rose and is admired everywhere for its classic form and luminous color. It is a blue-blood of the Rose family, raised from the famous Peace Rose. The 2½ to 3-ft. plant will adorn your garden and home with its many lovely blooms. This strong, well-balanced plant was tested under all conditions and found to be very healthy and impressive. (Pl. Pat. #1641.)

Arlene Francis

(Right) A golden yellow Hybrid Tea with an unforgettable fragrance has been chosen to bear the name of the equally unforgettable stage and television star. It epitomizes all the qualities that Arlene Francis expects in her perfect Rose. The bush is vigorous and prolific. It produces masses of flowers, and wherever the plant is cut, it repeats with brand-new shoots. Golden yellow buds develop into flowers with 20 to 25 petals, each opening to approximately 5 in. across. The delightful, true old Rose fragrance is distinct and long lasting—unusual in a yellow variety. This hardy plant continues to bloom even after the first frosts. Plant it this spring and have scores of gorgeous blooms all season, for years to come. (Pl. Pat. #1684.)

Konrad Adenauer

(Right) This sleek, ravishing Hybrid Tea was a real "showstopper" at an immense garden show at Hamburg. Named after the world-famous Chancellor of Germany, this beauty captured the eye and heart of everyone. Spectators were held spellbound by the huge, pointed dark red buds . . . that open ever so slowly to a blood-red . . . and finally to a darker shade of red that reflects a luxurious velvety sheen! Blooms freely during the entire season . . . and is extremely healthy and vigorous! Proud and upright, this hardy beauty grows on a strong stem and neck. The high-centered form and slow opening characteristics, plus the dark red color and outstanding fragrance, have skyrocketed this unusual Hybrid Tea into the class of a Show Rose! If you like your Roses to be noticed and complimented, plant Konrad Adenauer in your garden. (Pl. Pat. #1452.)

GAIL BORDEN (Left) A large, glamorous Hybrid Tea with a warm combination of pastel pink and apricot tints. The high-centered bud, soft yellow outside and lovely glowing apricot on the inside, opens gradually to an immense flower of warm pink. The 5½ to 6-in. flower is entirely different from any other Rose now in use . . . the snap and warmth of the color combinations exude an over-all feeling of friendliness and style. The tall plants are covered with luxuriant, dark shiny foliage that is unusually healthy and handsome. A beautiful, full flower with as many as 70 petals. A marvelous Rose to give a new look to gardens, it is fast becoming a great favorite of American gardeners. (Pl. Pat. #1618.)

Aida . . . Clear Rose-Red!

(Above) Named for the heroine of Verdi's most famous opera, this new Rose displays the same majestic grandeur and dark beauty as its namesake. Like the Ethiopian Princess herself, this royal member of rosedom will capture your enthusiasm and admiration for years to come. Rich spectrum-red blooms are deeper and more lustrous in color in the slow-opening buds. Finishing a clear, clean rose-red, the 5-in., semi-cupped flowers are lovely in all their stages. The velvety, heavy-textured petals are not affected by hot or wet weather. These gracefully cupped blooms are composed of about 25 petals, curling back as the flower opens. They are richly fragrant from the bud stage until the final petals drop, which greatly enhances the charm of this exquisite Rose. It is wonderful for cutting and arranging indoors, where its full beauty may be completely appreciated. The symmetrical plant will reach a height of 3 ft. and is covered with very attractive, rugged foliage. It blooms very freely all season long, from spring to frost. An interesting Rose in a different shade of red. (Pl. Pat. #1639.)

LARGEST ROSE!

The Million-Dollar Rose!

(Left) The Largest Yellow Hybrid Tea Rose in Existence! The graceful flowing lines of the long golden buds catch the eye immediately. As they mature, an occasional blush of red caresses the edges of the slender, 1½ to 2-in. buds. Throughout the entire season they unfold slowly, giving way to majestic, high-centered flowers of rich golden yellow, carried on long, sturdy stems. Imagine a plant with constantly repeating, radiant blooms that often reach 6½ to 7½ in. across, with a full but open center. From the start, the golden bud stops the eye, and the shapely, long-lasting flower keeps one watching it to the end. Even before these magnificent flowers appear, the bush adorns itself with nearly perfect, glossy green foliage. Its extremely pleasant old Rose fragrance will fill your garden. Perfect for cutting. No matter how many Roses you already have, or what colors they may be, you need Golden Masterpiece. Just picture the biggest, fullest, most exquisite Rose you ever saw, bathed in a shimmering, shining coat of gold . . . and there you have Golden Masterpiece! Yes, here's the biggest yellow Rose you ever saw. There has never been another "yellow" like it. For sheer size, it's in a class by itself . . . and for sheer beauty it is second to none. Plant it this spring and let it fill your garden and home with its unequalled brilliance. (Pl. Pat. #1284.)

White Swan

Fine White Exhibition Rose!

(Above) White Swan has unusually fine exhibition qualities. One outstanding feature is the upright growth of the bush, which is rare in a white Rose, and another excellent aspect is its pure white blooms. Long-pointed, graceful buds of alabaster-white open slowly to dazzling, stark white blooms that reach up to 4 in. across. These elegant flowers are high centered and provide an enjoyable addition to any garden. They are produced freely on 2-ft. stems excellent for cutting. White Swan has a delightful fragrance that is very effective but not dominant. The 3 to 4-ft. bush is very vigorous and will stand up under adverse conditions, requiring little care and producing these exquisite flowers all season long, year after year. An ample amount of dark green foliage covers the plant. This foliage is disease resistant as well as eye catching. Imagine a dark green bush covered with glorious, pure white flowers—a truly rare prize. A breathtaking sight that will make your garden a showplace. (Pl. Pat. #1115.)

BEST RED

New Yorker (Left)

New Yorker, the epitome of Red Roses, dresses itself in red from beginning to end, starting with the new shoots of bright red. Buds of perfect form and texture open slowly to tremendous, fragrant, sparkling red flowers—often measuring $6\frac{1}{2}$ in. across. The sparkling color does not fade but stays a deep rich red until the last. Not only is the color long lasting and sun resistant, but the bushes are also upright and sturdy. The 3 to $3\frac{1}{2}$ -ft. bush is vigorous and easy to grow and is adorned with healthy foliage. It produces a continuous succession of bloom from June right up to frost. When most people think of a Rose, they picture a delicately formed, deep red flower with soft, velvety petals and rich fragrance, just like New Yorker. (Pl. Pat. #823.)

Enchantment

BEST PEACH-PINK

Enchantment (Right)

Here is a truly sensational Rose . . . a delightful, everblooming Hybrid Tea that will be a high spot in your garden all season! Early in the season, it develops a great display of large, stately buds, apricot-tinged outside, deepening to clear yellow at the base. These lovely buds open gracefully with high-centered form, producing huge, long-lasting blooms of an entrancing peach-pink color. They attain 6 in. across at maturity, with as many as 35 petals per flower.

The plants are vigorous and upright, growing from 2 to 3 ft. high, with a wealth of dark green, disease-resistant foliage. Enchantment is an elegant Rose that will enhance your garden and make it the envy of the neighborhood. Take another look at this magnificent Rose. Order now! Let it beautify your home and garden with its generous blooms and its delightfully elusive yet all-pervading fragrance. (Pl. Pat. #737.)

BEST WHITE

White Queen

(Left) A sparkling new white Hybrid Tea! The Best White Rose of recent years! White Queen is slender in bud, with graceful high center, opening to a $4\frac{1}{2}$ -in. flower. The really stark white, open blooms last very well. Petals are stiff and are very resistant to wind and rain. This Rose is somewhat more vigorous than most recent whites, for it has been strengthened by the addition of Floribunda blood for this purpose. The plant grows about 3 ft. tall and makes very neat, upright growth. Excellent foliage is medium large, of a rich green. This new Hybrid Tea has commanded much attention in our test gardens, and the comments have been most favorable at all times. The sparkling white flowers are exquisite for arrangements in the house and give an air of sharpness and cleanliness in the garden. We like this variety and know it will make a place for itself. It belongs in your garden. Be the first in your neighborhood to display this generous beauty. (Pl. Pat. #1762.)

BEST BUFF-ORANGE

Diamond Jubilee

(Right) The warmth of glowing buff-orange flowers and old Rose fragrance makes Diamond Jubilee the attraction of many a garden. A Rose of unsurpassing loveliness on a most pleasing plant. Winner of an All-America Selections Award, Diamond Jubilee has firm, long-lasting, high-centered blooms 5 to 6 in. across, on long graceful stems that make it excellent for cutting. These exquisite flowers are slow opening, and they last exceptionally well when cut. The $3\frac{1}{2}$ -ft. plant has upwards of 30 to 40 double, shapely flowers with heavy-textured petals. Throughout the season this hardy bush adorns itself with dark green, decorative foliage. The constant succession of flowers is held erect on long stems. Non-fading, free-blooming, Diamond Jubilee is outstanding. (Pl. Pat. #824.)

FIRST GRANDIFLORA TO WIN ALL-AMERICA TRIALS

The superb pure pink shade found only in the choicest Cattleya orchids has at last been captured in the gorgeous Queen Elizabeth Rose. A lovely new color and a new class as well, for this is the first of the new Grandiflora class, named for its abundance of flowers combined with the magnificent qualities of the Hybrid Tea. The unusually clear, glowing blooms are a subtle and breath-taking blend of soft carmine-rose and dawn-pink, majestically set off by deep green, heavy-textured, glossy foliage, abundantly clothing the bush to the ground. The well-shaped plant grows unusually tall and is of good proportion. Exceptional vigor and disease resistance insure healthier, more luxuriant growth all season. The blooms, borne on long, almost thornless cutting stems, grow more beautiful with age. (Pl. Pat. #1259.)

**ONE OF THE MOST POPULAR
ROSES EVER CREATED!**

Peace has held a distinguished place among yellow Roses since the day it was introduced! The ovoid buds are golden yellow etched with pink. As they open, they change from canary-yellow to pale gold, to iridescent cream. Petals are edged with apple-blossom-pink that deepens as the flower slowly opens to glorious 5 to 6-in. size. Individual petals are large, numbering 40 to 45, and roll gracefully outward. Delicate fragrance. The plant is as superior as the bloom, hardy . . . vigorous . . . disease resistant. TRULY UNUSUAL COLOR... LAVENDER-LILAC-SILVER!

A lovely pastel tint of lavender-lilac with a light silvery reverse. Twilight is one of our series of lavender and lilac-shaded Roses, which we have been developing from the Grey Pearl and Lavender Pinocchio strains. The bud is pointed, opening gradually to a high-centered bloom of average size, with moderate fragrance. The pastel tints make it perfect for formal and informal arrangements, for both professional and amateur arrangers. Flowers are usually borne singly, on 12 to 15-in. stems. The plant grows 20 to 24 in. high and has excellent foliage of deep, dull green. (Pl. Pat. #1434.) \$2.75 each; 3 for \$7.20; 12 for \$28.80

B SONATA Cochineal-red in spring and fall, in summer lightening to unusual hues of deep lively pink. Outside of the petals is several shades darker than inside. The large flowers are perfectly shaped, opening gradually from long, pointed buds. Continuous bloom. Very hardy, vigorous, upright plant. (Pl. Pat. #732.)

C OPERA Scarlet buds with golden yellow base open to magnificent 6-in. blooms of flaming light scarlet with buff-yellow on the reverse. High-centered blooms are borne on long, strong stems. Vigorous, upright, healthy. (Pl. Pat. #1017.)

D TAWNY GOLD Frilled petals blend buff, bronze and gold in an enchanting way. Delightful fruity fragrance. The 2½-ft. plant is bushy and compact, with delightful holly-like foliage. Flower arrangers love the tantalizing color. Long lasting, indoors and out. Very hardy. (Pl. Pat. #950.)

E VOLCANO Really huge blooms open to 7 in. across. These tremendous flowers, opening from long, pointed buds, are a live, glowing cherry-red that seems to lighten the surroundings, and then slowly softens to a rosy pink. Fruity fragrance. A strong, bushy plant with dark foliage. Free blooming. (Pl. Pat. #951.)

F GOLDEN SCEPTER Early in June, the tall, open plant bears dozens of slender, golden yellow buds, which slowly unfurl into 5½-in., exquisite yellow blooms that retain their rich color all summer. Vigorous, 2½ to 3-ft. plant. A really majestic Hybrid Tea that is widely admired and planted. (Pl. Pat. #910.)

G DETROITER Buds of rich carmine-red open to spectacular bright red, high-centered blooms that reach 5½ in. across. The tall bush has an abundance of extra large, glossy foliage. Basal shoots make Detroit a strong, well-balanced plant. (Pl. Pat. #1219.)

H MARY MARGARET McBRIDE Pointed buds of deep coral-pink. Double blooms are large and high-centered, with shimmering gold at the base. Each flower has 35 to 50 furl petals. Foliage is dark, leathery and glossy. 2-ft. plants, vigorous and bushy. (Pl. Pat. #537.)

I RUBAIYAT Brilliant red with a profusion of long, graceful buds. As the buds open, a glorious riot of deep, scintillating crimson is revealed in the hearts of the blooms. The petal reverse is shades lighter. Height 4 ft. (Pl. Pat. #758.)

J SERENADE Exquisite burnt-orange buds and 5-in., brilliant coral-orange blooms are produced freely on 3½-ft. plants. Edges of the petals are an interesting darker shade. The excellent bush has nicely balanced, shiny foliage. Clean, open habit. (Pl. Pat. #852.)

K PAGEANT Golden yellow buds open slowly and when half open display a brilliant contrast of vermilion-red with gold reverse. The red turns to a deep, clear coral-rose-pink. 4½ to 5-in. flowers have a raspberry fragrance. 3-ft. plant. (Pl. Pat. #1252.)

L MARDI GRAS

Very dark red buds open up to 5-in., deep sparkling red flowers. Blooms have a pleasing Damask scent. The 3½-ft. bush extends strong, vigorous stems, fine for cutting. (Pl. Pat. #1139.)

ZULU QUEEN (*Top, Left Corner*) One of the "blackest" of all red Roses . . . a magnificent, dusky deep maroon, almost black in its recesses. Long, pointed buds open to gorgeous, large, very full blooms. Each of the lovely flowers is borne singly on a long stem. Large, dark green foliage adorns the stalwart bush. Of distinct vigor and beauty, the rich, velvety blooms never burn in the sun. While not an unusually free bloomer, Zulu Queen will produce more than enough flowers to satisfy your expectations. Distinct and delightful fragrance. 2-ft. plants.

\$2.50 each; 3 for \$6.60; 12 for \$26.40

PEACEFUL (*Above*) The bright, cheerful color of the bud gives only a hint of the glorious latent beauty revealed in the fully open, $5\frac{1}{2}$ to $6\frac{1}{2}$ -in. bloom. Large, ovoid buds open slowly; when only half open, the light coral outer petals that are suffused with pale apricot reflex slightly, revealing the luminous deep coral-rose-pink of the inside of the petals. The deeper shade of the inner side makes a most attractive pattern against the lighter reverse. Sturdy, $2\frac{1}{2}$ to 3-ft. plant. (Pl. Pat. #1599.)

\$2.50 each; 3 for \$6.60; 12 for \$26.40

REX ANDERSON (*Left*) An outstanding exhibition Rose of delicate ivory-white . . . perfectly formed and slow to open, one of the most successful whites. Combining this lovely purity with artistic form and dependability, Rex Anderson is an interesting addition to any Rose planting. Its very perfection of form and simplicity of color are a dramatic contrast. It may be grown to enormous size by disbudding. Exceptionally vigorous, with abundant gray-green foliage. Soft, fascinating scent. 2 to $2\frac{1}{2}$ ft. tall, disease resistant and hardy.

\$2.00 each; 3 for \$5.25; 12 for \$21.00

MRS. MINIVER (*Left*) Striking cardinal-red with a brilliance and sparkle that make it stand out sharply in any garden. The pointed, dark carmine buds become $5\frac{1}{2}$ to 6-in. blooms having an attractive cupped shape and ruffled petals; delightful old Rose fragrance. The hardy, vigorous, 30-in. plant has an abundance of large, glossy foliage. All over the country, rosarians say the color cannot be forgotten. (Pl. Pat. #725.)

Always in Bloom! Tall Growing . . . Ideal for Fences, Hedges and Specimen Plantings!

MANDARIN (Above) A beautiful oxblood-red, reminiscent of Burgundy wine, with large clusters of 3 to 4-in. flowers. Outstanding quality is the delightful old Rose fragrance. Reaches a height of 3½ ft. or more. Upright and vigorous growth. Effective for taller hedges, in foundation and background plantings. (Pl. Pat. #1040.)

\$1.50 each; 3 for \$3.90; 12 for \$15.60; 25 for \$30.00

HUNTSMAN (Above)

Huntsman is such a profuse, steady bloomer that once you see the glorious flowers you're sure to want them in your garden all season long. The long, slightly rounded, red-and-yellow buds and the large, brilliant blooms of spectrum-red and orange-yellow are of exhibition quality. The plant itself is of the compact, low-growing variety . . . with abundant, dark holly-green foliage . . . all in all, a broad growth similar to the popular Crimson Glory. 18 to 24-in. bush. (Pl. Pat. #1012.)

LODESTAR

Large, apricot buds open to grand, luscious peach-colored blooms. The outer perimeter is composed of longer buff-pink petals enclosing a full center of lively peach color. The double blooms are carried on a strong, bushy, 3 to 3½-ft. plant. These 4½ to 5-in. flowers have a heavy, sweet perfume. Here is the Rose that answered the often-heard plea for "fullness and fragrance," like the old-time Roses. Very desirable. (Pl. Pat. #1251.)

\$2.00 each; 3 for \$5.25; 12 for \$21.00

NEIGE PARFUM

Lovely, long, ovoid buds have slight tinges of cream, then turn a delicate lemon color as they unfold. In full bloom it is a beautiful white, of peony form, with a delicious lemon-verbena aroma. Plants are 2 to 2½ ft. tall, with rich dark green foliage. Acclaimed by many as the most fragrant of all white Roses. Greatly admired for bud vases. Will be a constant source of pride and joy when grown in your garden.

\$1.75 each; 3 for \$4.65; 12 for \$18.60

SUTTER'S GOLD

Beautiful long-pointed, yellow buds are richly shaded with orange and red. The 24-petaled open flowers are high centered and richly colored. Heavy tea fragrance adds greatly to its desirability. Large glossy, disease-resistant leaves cover the strong, free-branching, 2½ to 3-ft. bush. All-America Winner for 1950. Commemorates the discovery of gold at Sutter's Mill and the 100th Anniversary of California's statehood. (Pl. Pat. #885.)

TWO GREAT GRANDIFLORAS

Starfire

GOLD COAST (Right)

A lovely yellow, medium-growing Grandiflora with masses of flowers which open to clean clear yellow and retain their color until the petals drop. The plant is covered with 3½ to 4-in. flowers, set off by rich dark green foliage. Excellent pointed buds of deep yellow open to cupped, golden yellow blooms which hang on well. The deeper golden yellow stamens are very effective with the lighter yellow petals. Although not towering in growth, its size is above Floribundas. (Pl. Pat. #1790.)

\$2.50 each; 3 for \$6.60; 12 for \$26.40

STARFIRE (Left)

Starfire . . . in every way the Rose-lover's Rose. Its unusual currant-red color is sun-fast, will never fade. Its brilliant urn-shaped buds open into distinctive, perfectly contoured flowers . . . it possesses a unique luminous quality that gives texture and depth to each velvety petal. Starfire blossoms abundantly against a background of bronzy green foliage. Flowers occur singly on long stems . . . or in clusters. Stems from 6 to 12 in. long make it ideally suited for cutting. Beautiful and long lasting. (Pl. Pat. #1742.)

★**BETTER TIMES.** High-centered, brilliant cerise blooms on long stems. Pronounced, enchanting fragrance. Hardy, medium tall plant.

★**CRIMSON GLORY.** One of the ten most popular Roses in America. It is beautiful and dependable. Well-formed blooms of deep vivid crimson held proudly on a 2 to 2½-ft., vigorous bush. Voted by far the most fragrant Rose by A.R.S.

★**CONDESA DE SASTAGO.** Two-toned coppery pink inside, golden tint outside.

★**COUNTESS VANDAL.** Acclaimed as the most artistic bloom in roseland. Luscious tones of copper, bronze and pink, flooded with gold and reflexed with silver. Widely used exhibition Rose. A good plant of moderate size. Very effective in table arrangements.

★**ECLIPSE.** Streamlined and modern... slim tapering buds set a mark in grace and daintiness, often exceeding 2 in. in length! Distinctive branching sepals. Best all-purpose brilliant golden yellow Rose in all climates. Plants are vigorous, producing abundant bloom.

★**ETOILE DE HOLLANDE.** Bright red; large; loose; semi-double; fragrant. Vigorous. One of the most dependable and free-blooming older Roses.

★**DICKSONS RED.** This glowing, velvety scarlet-red Rose "has everything"... flashing, unfading color; large, high-centered form; rich spicy fragrance; abundant and continuous bloom. Strong, sturdy bush.

★**McGREY'S SUNSET.** Flowers are tinted delicate orange and rich scarlet. Best loved of the Irish Roses. 30-in. plants. Sweet, fresh fragrance.

McGredy's Yellow. Large, bright buttercup-yellow. Exquisite bud and flower. Good glossy foliage. Best known of McGredy Roses.

★**MRS. PIERRE S. DU PONT.** Deep golden yellow, slightly lighter with age; semi-double.

Lydia. A clear, vivid yellow. Although not a tall grower, this variety is a constant source of colorful flowers. Deep green, glossy foliage is decorative, and the rich clear yellow blooms glitter in contrast. The plant is very hardy, medium tall, and bushy.

★**NUMA FAY.** Very full petaled; light coral-pink blooms, satiny and fragrant. Free-blooming plant.

Poinsettia. Perfect buds; glowing fire-red blooms with reflexed petals. Fine cut flower. Vigorous.

President Herbert Hoover. Maroon and orange, two-tone. For years this has been the most popular two-tone Rose. Vigorous; free blooming; fragrant.

Radiance. Cameo-pink; large; fragrant. Blooms all season, in all climates. Tall.

Red Radiance. Large; long lasting; intensely fragrant; clear, even red. Tall. Very reliable.

★**SIGNORA.** Warm brownish orange buds open to lighter mandarin and salmon. Blooms are double and very fragrant, on long strong stems. Foliage rich, glossy dark green. Vigorous, 30 to 36-in. bush. A twenty-year favorite.

★**K. A. VIKTORIA.** One of the daintiest and most delightful of all white Roses. Produces great quantities of pure white flowers all season. Fragrant and long lived. Height 24 to 30 in.

Frau Karl Druschki. Pure white Roses. Very double, very large and long lasting. Noted for its extreme toughness and vigor. Can be used many ways... informal hedge, mass plantings, large flowering shrub, pillar type against walls, fences.

J & P Wonder Floribund ... Yet Produce Hund

"Truly the 20th Century Rose"

"We are particularly proud of the next few pages of this Catalog—for in them you will see the world's finest and largest selection of Floribunda Roses. Read below how these Wonder Floribundas can help you have the most beautiful, most colorful garden in your neighborhood this year—and for years to come!"

THE FIRST Floribunda was introduced just about twenty years ago—yet in this short span of time, Floribunda Roses have become almost as popular as the classic Hybrid Teas! And little wonder, for the Floribunda is, without doubt, the most useful, most free-blooming, most "care-free" of all Roses.

Imagine—from just one single Floribunda Rose bush you can get hundreds of blooms . . . each one from 2½ to 5 full inches across . . . in immense clusters . . . lovely, colorful blooms that rival the beauty of the most precious Hybrid Teas. And you see these flowers in your garden all season long, for Floribundas are *everblooming* . . . producing flowers *continuously* from June right up to frost.

Flowering Hedges That Never Need Trimming!

Because Floribunda Rose plants are so compact, grow so densely, they make ideal hedges. Just plant a few of them this spring, and in no time at all you'll have the most beautiful hedge you ever saw . . . a hedge that produces glorious, colorful blooms all season long . . . a hedge that never spreads, never sprawls, never needs trimming—except when you want cut flowers.

As you can see from the illustrations on this page, Floribundas are useful in many other ways, too—perfect for foundation plantings, for borders, for mass plantings in formal or informal beds, picture window plantings, etc. Useful, indeed.

Yes, Floribundas are beautiful, everblooming, useful, and so easy to grow. They're extremely hardy, requiring very little care, and will grow almost anywhere. Try some in your garden this year. There's a wide range of colors to choose from, and you're sure to love them all.

A Smart Tip for Wise Gardeners

COLOR! COLOR! COLOR! . . . that's what makes a garden outstanding! The more generous you are in filling your garden with color from spring to frost, the more beautiful . . . the more unusual, the effect.

Floribunda Roses give you more color than any other garden flower because they bloom throughout the season in big generous clusters that seem endless. Every plant is aglow with beautiful pinks, reds, yellows or whites as the ever-blooming Floribundas continue to produce literally hundreds of blooms even in limited space.

The illustrations above show but a few of the many ways in which Floribunda Roses can help you make your garden more beautiful.

Winner, Bagatelle Gold Medal, Paris, France!

Golden Fleece

(Right) Gay, tawny gold buds open slowly, dramatically to blooms of rich warm gold . . . then . . . as a grand finale, they flare into a bright, dazzling canary color! The flowers are unusually large for a Floribunda—actually 4 to 4½ in. across . . . growing in graceful clusters with as many as 20 individual blooms. Vigorous, bushy, with decorative, disease-resistant foliage, in a medium shade of green. (Pl. Pat. #1512.)

THE WONDER FLORIBUNDA THAT WAS DIS-
PLAYED IN **LIFE** **SATURDAY EVENING POST**
READER'S DIGEST AND MANY OTHERS!

(Left) What better name than "Spartan" for this amazingly hardy Floribunda . . . a wonderful J&P creation that captures the glowing beauty and charm of Helen, fairest of women, according to Greek legend . . . together with the sturdiness, endurance and robust health of her compatriots!

The flowers start displaying their stunning beauty early . . . as scores of gorgeous burnt-orange buds appear. Slowly, the buds open to huge, high-centered, Hybrid-Tea-shaped blooms with 35 to 40 petals . . . of a sparkling warm ORANGE-RED softening to reddish coral . . . with a sweet, old Rose fragrance. The vigorous plant blooms from early spring to severe frost . . . sometimes in clusters, sometimes singly. A sturdy, compact grower, healthy and hardy . . . Spartan will not disappoint you.

For sheer beauty, breath-taking color, exquisite form, profusion of bloom, exceptional hardiness—for all the qualities wanted in any Rose—Spartan can't be beat. It is truly the first perfect 20th-Century Rose. (Pl. Pat. #1357.)

(Right) An enchanting white Floribunda with sparkling 4 to 5-in. flowers and lustrous dark green foliage. The gardenia-like flowers open fully, with a sweet spicy fragrance. As the flower slowly unfolds, the center petals remain upright. When the center petals finally separate and open, the small circle of golden yellow stamens gives an added note of charm. Seen against the background of green foliage, the effect is one of cool freshness and youth. Flowers are produced constantly in clusters and as individual blooms. Easy to care for and resistant to disease, White Bouquet is a wonderful source of cut flowers for intimate bouquets. This 1957 All-America Selections Winner is rapidly becoming a favorite of home gardeners. (Pl. Pat. #1415.)

Fashion . . . THE GREATEST PRIZE-WINNER OF ALL TIME!

(Left) Here indeed is the finest Floribunda ever created! That's not a claim but a PROVEN FACT, for no other Rose in history has ever won so many awards. No other Rose has ever won 9 World-Wide Awards! And no wonder! For nowhere is there another Rose to match Fashion's breath-taking color—luminous coral-pink suffused with gold. It produces hundreds of Roses on every bush—hundreds of exquisite oriental-red buds which are slowly transformed into miniature Hybrid Tea-shaped blooms that reach up to 3½ in. across. Graceful, wavy petals and a rich display of golden yellow stamens add even more beauty to the luminous coral-pink flowers. Long-lasting blooms with a delicate fragrance. Hardy, vigorous plants reach 2½ to 3 ft. and carry immense clusters of 20 to 25 flowers that bloom continuously from June to frost. (Pl. Pat. #789.)

Ivory Fashion

(Right) Here is one of the latest additions to J&P's own family of All-America Award-Winning Floribundas! Born with the blessing of Fashion as a parent (the greatest prize-winner of them all), Ivory Fashion is already being acclaimed as the top Floribunda of recent years.

Early in June Ivory Fashion's long, slender buds begin to appear . . . their chaste white beauty heightened with a wispy touch of yellow. Slowly, they open into striking, high-centered cupped flowers—each one a full 4 in. across! These large, clear ivory-colored blooms are exceptionally long lasting and display a gorgeous set of richly decorative, graceful golden stamens . . . and there's a breath-taking Tea Rose fragrance. Like all members of J&P's All-America family, Ivory Fashion blooms continuously from June to frost. Order it now, plant it this spring—and be the very first to enjoy its thrilling beauty this June. This All-America Selections Award Winner for 1958 is a large, deep yellow Floribunda, distinguished for its vigor, size, form and productiveness. The pointed buds are deep yellow and open up to 3 to 3½-in., non-fading blooms. The 2½-ft. plants are well clothed with glossy dark green foliage and are constantly renewed by the freely sprouting basal shoots. Never without flowers, this new prize-winner is a welcome addition to the family of Floribundas, with its larger, non-fading flower, glossy foliage and sweet Rose fragrance. It has been successful everywhere. There is marked disease resistance in all regions and great enthusiasm for the firm color and ornamental foliage. Our own experts who tested it acknowledge it to be a winner. Plant it this spring and in a few weeks your garden will burst forth with these exquisite flowers. (Pl. Pat. #1683.)

(Above) A charmingly fragrant Floribunda, very easy to grow. A fresh Fashion-colored Rose, with an exquisite deeper coral bud. The buds open slowly, unfurling perfectly to fully petaled, Hybrid Tea-shaped flowers. The plant has both large heads of blooms and many individual flowering stems alternating with the heavy flower heads. There is always a great amount of bloom, which carries a delightful old Rose fragrance. Flowers are about 3 to 3½ in. wide and often have 30 to 35 petals. The color fades gracefully and the petals drop off cleanly at the end. Foliage is dense, dark glossy green and the plant height is easily 24 in. the first year and 36 in. the second year and thereafter. This Rose is a great favorite of ours, for it is also a very effective greenhouse cut-flower variety. The pastel tint matches modern home decorations, and the doll-like primness of the flower is like a pretty girl swirling her skirts. (Pl. Pat. #1563.)

Please Read Following When You Order

IMPORTANT—

*Please
Help Us to
Help You!*

When filling out your order it is most important for all members of the same household to order under one name.

In order to help us keep our records straight *please use your address plus your zone number which we have imprinted on the front of the catalog envelope*. If for some reason this address should be incorrect, please attach a slip of paper to your order correcting the address.

We are also finding cases where customers are using a borough or a suburb of a city and also the city itself. For example, Bronx and New York City or Germantown and Philadelphia. *Again please use your city or borough as imprinted on the front of the catalog envelope*.

It would be greatly appreciated if you would help us to see that your orders are sent to you correctly without any delay.

HOW TO REMIT

The best way to send payment is by check, U. S. Postal Notes or by Post Office or Express Money Order. **Do not send stamps or currency** because we cannot assume any responsibility unless sent by registered mail.

SHIPPING DATES

We will send your order at the proper time for planting in your locality. It is not necessary for you to specify a shipping date.

ITEMS NOT LISTED

Any variety of Roses, Perennials or other material which is not listed on the order blank or in the catalog is unavailable for the current season. Plants not listed will be in our future catalogs when available.

PLEASE DO NOT ASK US TO CHANGE YOUR ORDER

We handle thousands of orders within a very short season, and it is impractical to locate individual orders for changes. We want to accommodate our customers but it is impossible to find any particular order quickly during the shipping season.

GARDENER'S AIDS AND ACCESSORIES

The New J&P MIDGET GARDEN DUSTER

Duster and 1-Pound Package of
J&P Rose Dust and Extension

ONLY \$9.95

Throws 8-Foot Dust Stream With Just One Turn of The Handle!

NEW Extension for Reaching Hard-to-Get Places!

- Rustproof Metal Alloy Construction Throughout!
- Treats over 200 Rose Bushes with One Filling!
- Weighs only 1 1/4 pounds!

An engineering masterpiece, this tiny hand-operated rotary duster is the smallest in the world; yet, it is capable of throwing an 8-foot stream of dust. Holds enough powder in one filling to cover 200 Rose Bushes. This tiny, unbelievably efficient duster is all metal, even to its pistol grip handle. The gears are sturdy enough to continue operating indefinitely. Now, with each duster you will receive an extension, 1 1/2 feet long, enabling you to reach taller bushes and to dust hard-to-get places inside of the bushes. An adjustable funnel on the end makes it easier to dust under leaves. Made of rustproof metal alloy it will last a lifetime. The Midget Duster, Extension and 1 lb. of J & P Dust for only \$9.95.

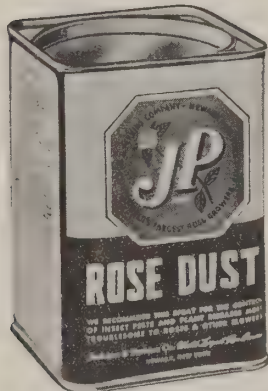

FREE with Each Midget Duster,
1 Pound Package of J&P
Rose Dust and Extension.

You may purchase the
New Extension for your
Midget Duster separately... for only 75c

J & P**

SPRAY AND DUST

NEW IMPROVED J&P DUST!

**NO MIXING! JUST PUT IN
DUSTER AND USE!**

Excellent Control for Insects

The ideal material for those who prefer a pesticide in dry powder form. No mixing; no solutions. Simply dust the roses lightly within 24 hours after every rain, or every 10 days in dry weather. It controls chewing insects, sucking insects and plant diseases and is an effective deterrent to Japanese beetles. Now with Aramite for red spider mite control.

- 1 lb. Treats 6 plants for a whole season... \$1.25
- 4 lbs. Treats 24 plants for a whole season... 4.50
- 24 lbs. Treats 150 plants for a whole season... 22.50
(1 and 4 lbs. shipped postage prepaid)

NEW IMPROVED J&P SPRAY!

**MULTI-PURPOSE!
EXTREMELY EASY TO USE!**

Better than ever—cleaner foliage, less black residue. With the new wonder fungicides added. Karathane for mildew, Zineb and Phaltan for leaf spots, Maneb for protection against blackspot, mildew and Rose, Chrysanthemum and Snapdragon rusts. Also a deterrent to Japanese beetles and rose chafer. Now with Aramite which controls red spider mite on roses, perennials and evergreens. No other multi-purpose pesticide contains this exclusive J&P formula.

THE SMALLEST ROSES IN THE WORLD!

Baby Betsy
McCall

SCORES OF USES IN YOUR GARDEN

Despite their delicate, gentle appearance . . . despite the fact that their blooms are so unbelievably tiny . . . Miniature Roses are every bit as hardy, as tough, as easy to grow as our much larger Hybrid Teas and Floribundas. Plant them anywhere in your garden—in little out-of-the-way spots where larger plants can't grow, in front of or between taller-growing flowers or evergreens . . . or use them in window boxes or rock gardens! When cut, the fairy-like blooms make ideal boutonnieres, charming centerpieces, entrancing wrist corsages.

OAKINGTON RUBY

(Not Illustrated) Deep carmine buds open to rich ruby-crimson, fully double flowers smaller than 1 in., even fully opened. Less than 12 in. tall. Free flowering from May to November; demands no special attention except cover in cold winters.

\$1.00 each; 3 for \$2.50;
12 for \$10.00

Gorgeous Jackson & Perkins Miniature Roses produce exquisite blooms no bigger than your fingernail . . . blooms so small that a thimble holds a bouquet of six!

NEW! BABY BETSY McCALL (Above)

Buds no bigger than your fingernail . . . blooms no larger than a nickel . . . and the plant grows just about 8 in. high! Imagine having a real Rose bush that produces pink-pearl blooms so dainty, so petite that a thimble or tiny vial will hold a bouquet of six or more! Yes, these are the world's smallest Roses . . . but for sheer beauty and perfection they rival the most prized Hybrid Teas, for each incredibly tiny bloom is heavily petaled, fully double, perfectly shaped! And you'll have these enchanting blooms in your garden all season long, from spring to frost. It's like a fairytale come true! (Pl. Pat. App. For.)

\$1.25 each; 3 for \$3.30; 12 for \$13.20

DWARFKING (Right, Bottom)

Exquisitely formed, miniature buds open to flowers no larger than a postage stamp. From bud to open bloom with its starlike edges, this is a personification of the ideal in Rose flower form. Fully double and lightly fragrant. The color is a clean blood-red, and the dark red bud is perfect for a boutonniere. Flowers are usually borne in clusters and sometimes in individual stems, but the plant is always in bloom. These completely hardy plants will build up in size year after year. (Pl. Pat. #1577.)

\$1.25 each; 3 for \$3.30; 12 for \$13.20

NEW! RED IMP (Above)

This is one of the newer Miniature Roses. An unfading, deep, rich crimson with blooms of up to 60 petals. Form of bud and blossom is perfect. A fully double Miniature Rose that sparkles in bright beauty! (Plant Pat. #1032.)

\$1.25 each; 3 for \$3.30; 12 for \$13.20

BABY MASQUERADE (Above, Right)

A real novelty in the smallest of Roses, with many colors on each plant at all times. The exact replica of Floribunda Masquerade with tiny yellow buds that open to rich yellow blooms, eventually turning pink and finishing a very pleasant deep red. 8-in. plants bloom from May to November. (Pl. Pat. #1580.)

\$1.25 each; 3 for \$3.30; 12 for \$13.20

ROSA ROULETTI (Above, Right)

Perfect little double rose-pink flowers on a 4 to 6-in. plant, just as dainty as the Roses. The little Swiss Rose that was lost for many years; now treasured in American gardens. Very easy to grow.

\$1.00 each; 3 for \$2.50; 12 for \$10.00;
25 for \$18.75

TWINKLES (Above, Right)

The new Miniature Rose Twinkles is a lovely white, which sparkles in the sunlight with its many tiny blooms. The fully double flower has just a slight fragrance. Many flowers are produced all summer long on a compact bush that stays comfortably low. See how appealing it will be. (Pl. Pat. #1407.)

DWARF FLORIBUNDAS IDEAL FOR BORDER AND EDGING WALKS!

PIGMY GOLD (Left) Flowers about 1 in. in diameter appear in clusters or singly. They add color and interest wherever used. Dark, shiny green foliage is a rich contrast to the golden yellow buds and flowers. A dwarf, upright plant only a foot tall. (Pl. Pat. #1114.)

\$1.50 each; 3 for \$3.90; 12 for \$15.60

PIGMY RED (Right) Petite, 12-in. plant. Always in bloom, it produces as many as 17 blooms and buds on one plant at one time. The dark red flowers are enhanced by a tiny white eye in the center. Imagine a Rose bush only a foot high that blooms so profusely. (Pl. Pat. #1319.)

Betsy McCall

(Left) Like its winsome namesake, the Betsy McCall Floribunda is delightfully captivating. The color is soft coral overlaid with gold. The 2½ to 3-ft. bush is well clothed with foliage. It has a neat habit and an abundance of slender buds and cupped flowers. The flowers generally appear in airy clusters and occasionally on individual stems. They keep well and are delightful when used in small arrangements and bouquets. The plant has many of the characteristics of its internationally famous parent, Fashion. The two varieties are exquisite companions for a spot where they may be enjoyed from the house. A beautiful, hardy plant. (Pl. Pat. #1603.)

Jiminy Cricket

1955 All-America Winner!

(Below) Jiminy Cricket was the only Floribunda to win the 1955 All-America Selections Award. This pert new Floribunda has masses of tangerine-red buds opening to sharp coral-orange or vermilion blooms that finish a lovely pink-coral shade. The unusual color is amazing, as it never blues or becomes commonplace. The 3½-in., cup-shaped flowers cover the bush throughout the season. The thrifty plant is clothed in shiny green foliage which is bronzy when young. Each individual bloom is a model of perfection and has a distinctive, pleasing Damask fragrance. The upright, 4-ft. bush is ideal for hedges and for massing. Pleasing planted alone or with other Floribundas. (Pl. Pat. #1346.)

Goldilocks

Winner of John Cook Medal

(Right, Below) The truly Golden Yellow Floribunda! Somewhere in your garden there is room for this mass of glorious sunshine which will delight you from early spring all through summer and fall. Clusters last a long time, as fresh new buds keep replenishing the over-all effect of a golden yellow mass. Ovoid buds open slowly and gracefully, passing through many attractive phases. The flowers are cupped in the early stages and gradually open to 3½ in. across. Plants have a dense, spreading, well-balanced habit of growth, reaching a height of 2½ ft. Dark green foliage is glossy and decorative. Can be planted anywhere. (Pl. Pat. #672.)

Red Wings

(Left) A snappy deep red Floribunda with long-lasting flowers and unfading color. This gorgeous velvety red tone stands the hot sun without fading and withstands the spotting of summer rains. Flowers with about 20 petals come both singly and clustered. Red Wings is very dependable under all conditions. The plant is medium large and well formed. There is a great amount of foliage, which, with the rich red blooms, gives a wonderful effect. The plant is useful in all garden plantings. It can be depended on for a constant show of color, as it steadily produces good heads of bloom from spring to hard frost. (Pl. Pat. #1788.)

1953 All-America Winner!

(Right, Above) Exquisite Ophelia-shaped buds of a translucent light Fashion color, graced by shades of red, make a startling change to graceful, cup-shaped, 3½ to 4-in. blooms of sparkling coral-shell-pink. A suffusion of yellow is present in all of the early stages, until at the very end of bloom it finishes a soft shell-pink. This generous, free bloomer has excellent spring and fall flowers that never fade or lose their sparkle. The blooms are fragrant, with about 25 petals. The bushy, 2½ to 3-ft. plant is strong and compact, with an abundance of rich green foliage. Ma Perkins is highly resistant to diseases and insect pests. Excellent for bouquets. (Pl. Pat. #1143.)

Vogue . . . Winner of Six World-Wide Awards!

(Below) The rich cherry-coral color of Vogue is only one of its outstanding features. The slow opening of its ovoid buds is a show in itself. These buds evolve into perfectly formed, high-centered blooms that are 3 to 4 in. across, borne in medium and large clusters all season long. The 2½ to 3-ft. plant grows compact and bushy, with abundant, dark, leathery foliage. Ideal for foundation planting, beds, borders and specimens. It will yield beautiful, carnation-scented bouquets. This 1952 All-America Rose Selections winner is among the finest Floribundas ever grown. (Pl. Pat. #926.)

Summer Snow *(Above)*

The most prolific of white Floribundas, with great "drifts" of beautiful large clusters like mounds of snow. The remarkable profusion of heavy flower clusters covers the plant during late June, July, August and September. It is being used to work wonders in the "white gardens" now so much in vogue, also to accent and blend other colors in perennial and shrubbery borders. The clear white, dainty blooms reach 3½ in. across. The 20-in. plant is very hardy. Sweet, elusive fragrance. Light green, attractive foliage. Regardless of what you have in your garden, Summer Snow in groups will make it more interesting . . . more delightful . . . more beautiful. A "good neighbor" Rose, it blends with everything and never raises a discordant tone.

Baby Blaze *(Above)*

For years Jackson & Perkins have been proud to offer the world-famous Blaze Climber. And now we are greatly pleased to offer this famous Rose in the form of a captivating Floribunda. Prolific in flowering and richly warm in color, this cheerful Floribunda gives a new approach to red Roses. Delicate, semi-cup-shaped flowers have interesting fluted petals. A vigorous, 3-ft. bush produces an abundance of deep red, pointed buds that mature to velvety red. Finishing a few shades lighter, the bright color is much enhanced by the white eye at the center of the flower. Baby Blaze does not blue in any of its stages but stays a clean red until the last petals fall. The rich shade deserves the praise it receives everywhere. (Pl. Pat. #1362.)

Pinocchio

(Left) Thousands of our customers know and love Pinocchio. Great clusters of gracefully pointed, rich salmon buds flushed gold at the base open up to long-lasting, exhibition-formed blooms like miniature Hybrid Teas. As the "sweet-heart" flowers open, they change to soft lucid pink and shade into deeper pink at the edges. The 20 to 24-in. plant is extremely hardy, with ample, healthy foliage. Blooms continuously all summer. (Pl. Pat. #484.)

Rochester

(Right) One of the finest of Floribundas. Very popular with those who know Roses well. All season long, Rochester produces enchanting blooms of almost Hybrid Tea size. A group planting is a continuous display from early June till heavy frost. The bloom is medium large and double, with the breathtaking sensation of an oriental pearl mounted on gold. Remarkably hardy and vigorous, with the cluster formation and free-blooming habit of Floribundas.

Glacier (Left) As cool and invigorating as the breeze that blows over snow-capped mountains! It bursts out in June with dozens of icy white buds that glisten and dance like icicles in the sun. The 4½-in. flowers—really large for a Floribunda—are borne either singly or in clusters right up until frost . . . covering the bush with drifts of snow. Large, deep green foliage. Perfect for a thick blanket of white for any area in your garden. The hardy, vigorous plant, very bushy and well branched, grows 2 to 2½ ft. tall. A seedling of the ever-popular Floribunda Summer Snow, Glacier has larger individual flowers and gives an even whiter effect. (Pl. Pat. #1025.)

Here is a Rose so brilliant and so vivid that words or color illustrations just cannot do it justice. The color is scintillating. Beautiful unfading flowers reach 4 in. in diameter, in clusters of 6 or more. These brilliant orange-scarlet blooms are like flaming torches and are superbly accented by rich glossy foliage. The plant grows 2½ to 3 ft. in height, producing great quantities of foliage and forming a very compact bush. It has moderate old-fashioned Tea Rose fragrance and shows off especially well against a dark background. (Pl. Pat. #1036.)

This modern, sophisticated purple-lilac to lavender-lilac tone introduces a rich, friendly and daring color for new effects. From early bud to fully opened flower, the color changes slowly from an opulent purple-lilac to a lavender-lilac and finishes a lovely cool lavender. The 2½ to 3-in. flowers grow in clusters of 4 to 8 individual blooms and are delightfully fragrant. The bushy, symmetrical plant is well covered with dark green foliage that forms a nice backdrop for the flowers. This new color is a great step ahead in the Rose world and a challenge to many Rose lovers. Plant it and your garden will be the envy of the neighborhood. (Pl. Pat. #1585.)

Red Pinocchio (Right)

Picture-perfect buds are deep satiny carmine-red on the outside and brighter carmine on the inside. The 3½-in., Hybrid-Tea-shaped blooms are cupped, with about 25 to 30 petals, and present masses of clean red color all season long. They are carried in large, long-lasting clusters that are unfading. The upright bush is vigorous and free flowering, with long shoots and excellent foliage. Very hardy, easy to grow and always in bloom. (Pl. Pat. #812.)

Pink Chiffon (Below)

A Floribunda for those who like something different in Roses. The bud is a light pastel pink with a deeper blush heart. As the flower opens, this captivating delicate pink is retained while the inner petals, which have almost a silky texture, keep their deeper tones. The open 3-in. bloom is full, slightly cupped and moderately fragrant. The bushy plant, covered with glossy foliage, reaches a height of 24 to 30 in. One of the most beautiful small Roses in years, exquisite for arrangements as well as the garden. (Pl. Pat. #1564.)

SIREN

Brilliant fiery scarlet . . . a flaming red that sparkles and glows like a precious ruby. And unlike an ordinary Rose this deep blazing red really lasts . . . from exquisite bud form until the last petals fold up and float away. Full, 3½-in. blooms have beautiful ruffled petals. Even in extreme heat, these lovely red beauties keep their form and color, setting your garden ablaze all season long. The vigorous, compact plant reaches 2 ft. (Pl. Pat. #1197.)

YELLOW PINOCCHIO

Another thrilling Pinocchio, with great masses of fragrant, apricot-yellow blooms and the same sturdy bush. The plant grows about 3 ft. tall and at its peak of bloom is a rounded mound of yellow. The petite buds, touched red on the outside petals, are carried in large clusters. The foliage is dark green, rough and very disease resistant. The 3-in., fully double blooms last well and come continually from spring to frost. They are especially good for cutting. (Pl. Pat. #992.)

PINK BOUNTIFUL

Ovoid buds are tinted deep red-dish pink and unfold demurely into flowers with buff-salmon-pink hearts, flushing into a deeper pink at the outer petals. You will prize this lusty Floribunda in your garden for its soft pink flowers with their dawn like glow. Large, lasting bloom clusters provide a fresh and profuse mass of color all summer long. Open flowers measure up to 3 in. across, like miniature Hybrid Teas. Hardy and easy to grow, the bush reaches 2 ft. (Pl. Pat. #601.)

GERANIUM RED

Imagine a Rose that looks like a geranium and has the same spicy fragrance. The 4-in., camellia-like flowers of vivid spectrum-red border on the scarlet of the old-fashioned geranium. The very double blooms are borne in abundance. Buds are dark ox-blood-red, and the tumbled pattern of inner petals shows a brighter color in contrast to the dark buds. Vigorous and hardy, the plant will reach 2 ft. tall. Blooms in clusters and individually. Disease resistant. (Pl. Pat. #811.)

MASQUERADE

Truly unique and different. Each cluster of 10 to 25 buds shows blooms of yellow, red, pink, lemon and sometimes orange. All these colors appear at once. Each bud is golden yellow, with tiny vermilion marks. The center bud in each cluster opens first, becoming rose-pink, gradually deepening to red. While the first bud in any cluster is going through these stages, other buds are developing and passing through the same color sequence. Bushy and free. (Pl. Pat. #975.)

True to the traditional hero of Tirso de Molina's drama, Mozart's most perfect opera, and Lord Byron's epic poem, this new Climber constantly surrounds itself with beauty. This Pillar Rose dresses itself with an unusual number of velvety red flowers throughout the summer. In spring there is a burst of deep velvety red, 5-in. flowers, both in clusters and singly, with a delightful fragrance. Pointed buds of rich deeper red are excellent for cutting. Flowers retain their clean color until the last petals drop to the ground. All through the summer there is a constant display not only on the old wood but on new tall-growing bottom breaks. The 8 to 10-ft. plant is filled with dark, lustrous foliage. Highly resistant to mildew, this Climber promises to gain great popularity as its excellent quality of bloom, its color and its fragrance become known. (Pl. Pat. #1864.)

Ovoid buds open to gorgeous, golden yellow blooms with up to 45 shiny petals. These richly colored, enduring flowers reach up to 4 in. across. With the blooming habit of a Floribunda, the flowers are carried in clusters of three to seven and also singly on stems adequate for cutting. The abundant foliage is of moderate size, borne on the 4 to 5-ft. canes that develop the first year. Three to four canes will be produced each following year until the plant reaches its full majestic height of 5 to 7 ft. A moderate fruity fragrance surrounds this well-balanced Climber. This brilliant plant is very adaptable and extremely hardy. We are proud to offer it to you. (Pl. Pat. #1849.)

Morning Dawn

(Below) A refreshing color in Climbers. The large, 5-in. flowers are a dewy, silvery rose flushed with salmon, so it is a warm soft pink in all stages. A suffusion of yellow at the base of the petals only serves to enhance this Rose. One of the most fascinating things about this Climber is its unusually large buds, which are about 3 in. across and of the same color and fine texture as the full blooms. Magnificent, fully double blooms appear singly and on very long stems. Attractive shiny, dark holly-like foliage decorates this 6 to 8-ft. pillar. It will fill your garden with its sweet, spicy old Rose fragrance. You will be delighted with its performance and marvel at its large, enchanting blooms. Plant it this spring and enjoy its beauty and fragrance for years to come. We are sure it will raise delighted comments from your neighbors. Let its gorgeous blooms enhance your garden and home. (Pl. Gladiator

(Below) Here's the champion of Everblooming Climbers. Like the gladiators of old, it has incredible endurance . . . blooms and reblooms all season. You'd expect to find such huge blooms only on the finest Hybrid Tea; yet Gladiator is noted for its immense, 5-in., high-centered flowers . . . unusually large for a Climber. But the huge size is only part of the story! When you see the brilliant rose-red color—a subtle blend of the brightest scarlet and the softest red—you'll know why this gorgeous Climber is in a class by itself. You'll be absolutely thrilled when scores of exquisite flowers burst into bloom on the 8 to 10-ft. plants, making an irresistibly beautiful picture in your garden, on your fence, around your house! And Gladiator imparts a delicate, pleasant fragrance that is really delightful. The large, disease-resistant foliage is an impressive dark emerald-green in color and creates a decorative effect by itself. Yet so hardy is this Climber that it withstands the battles of zero winter climate. In every sense of the word, it is a real champion (Pl. Pat. #1524.)

Climbing Crimson Glory

Climbing Crimson Glory

(Above) One of the world's most popular Roses in Climber form. For years Crimson Glory has been universally accepted as one of the best Roses in existence. This luxuriant, vigorous, fast-climbing plant is covered with beautifully formed blooms of deep vivid crimson . . . each on a sturdy stem. The deep red buds are urn-shaped and gradually unfold into full, perfectly formed, high-centered blooms. Completely captivating fragrance . . . so sweet and refreshing that you just can't get enough of it. Give your garden unusual splendor and richness; make every post, pillar, fence or wall a dazzling sheet of glory by using this Climber liberally. In sub-zero areas plant this Climber in a sheltered location and have some protection against winter injury. When you plant this popular-Hybrid Tea in the form of a magnificent cascading Climber, you add an unequalled touch of splendor to your garden. We are proud to offer this remarkable Climber to our many customers and friends. Plant it this fall and enjoy it for years. (Pl. Pat. #736.)

Aloha (Below)

Like an artist's dream, Aloha bursts into bloom from top to bottom with a breath-taking display of never-to-be-forgotten glory. After this first peak of June beauty, Aloha continues to bloom frequently during the entire season until frost. So profuse . . . so rich . . . in its deep rose-pink blooms of enormous size that it defies description. An unbelievable mass of deep coral-pink buds starts the show. These open to very double, perfectly formed blooms of handsome size. Flower after flower measures 5 in. across and as much as 3 in. deep. Each gorgeous petal is strong and waxy. Strong rich rose-pink with deeper tones on the inside of the petals. Unlike most Climbers, Aloha blooms in long-stemmed clusters of buds. As if to prolong its display, they do not open all at once. The primary bud develops into a gorgeous 5-in. bloom while the secondary buds around it are still undeveloped. The lovely rosette form of the overlapping petals holds up especially well. (Pl. Climbing Showers

For the first time in 16 years the coveted national AARS Award has been won by a Pillar and Climbing Rose, GOLDEN SHOWERS. It is the answer to the landscaper's dream—a Rose variety that lends itself to landscape treatment as no other ever has. Exquisitely shaped, daffodil-yellow, long-pointed buds and fragrant, high-centered, 4½ to 5-in., open yellow blooms. Almost thornless, with long, bronze cutting stems, GOLDEN SHOWERS makes exciting cut-flower arrangements. Trained as a Climber, it will attain a height of 6 to 8 ft. and will reach up and along a trellis or fence. Or it can be shaped as a bush, with

The orange-red color that has been so popularly received in Hybrid Teas and Floribundas has reached the Climbers, where it is particularly effective in the breath-taking SPECTACULAR. As its name implies, this Everblooming Climber leaves a lasting impression when it is seen as a full blooming plant. Although the spring blooms alone are ample recompense for the proud owner, there is always a rich fall bloom as a wonderful bonus. The 6 to 7-ft. canes which continue to greater heights the next year are indicative of its hardiness and vitality. SPECTACULAR carries its enchanting orange-red to spectrum-red clusters for a long time . . . and each of the 4-in. blooms is infused with vigor and freshness. The alluring color does not fade even in 90 and 100-degree temperatures. We are particularly pleased with this new Climber and feel it will make a lot of friends. Don't miss the opportunity of having it in your garden this year. (Pl. Pat. #1416.)

Climbing Coral Dawn

Climbing Coral Dawn

(Above) Here is an Everblooming Climber with a CORAL-PINK color! Yes, a sparkling deep coral-pink . . . the color that has become so popular in bush Roses. And the color really lasts. The coral tone does not fade at any stage . . . from the dainty pointed buds to the slow-opening, graceful, long-lasting, 4½-in. blooms. The color is Coral Dawn's main attraction, but it is a superior Climber in every other respect, too. Produces the same continuous repetition of flowering as the popular New Dawn, but the Roses themselves are larger, fuller, more colorful and freely decorate the plant all summer long, in clusters of from 3 to 20 buds. The lustrous, dark green foliage is disease resistant and sets off the coral-pink flowers. This excellent Climber is very easy to grow and will do extremely well in all regions. Truly a lovely variety, Coral Dawn is just the ideal pillar for any home. The 6 to 8-ft. plant will decorate your garden and home for many years to come. Plant it this fall. (Pl. Pat. #1117.)

WHERE THE NEW BLAZE CAME FROM . . .

One particular plant that outbloomed and outperformed all others was found in the nursery years ago. During July, August and September this amazing plant continued to bloom constantly. We very carefully isolated this plant and used it as a stock plant from which to multiply this new strain of Blaze. After years of propagating from this heavily blooming type, we now have the new everblooming strain ready for sale. We guarantee it to bloom in June, July, August and September. You'll see how superior it is.

Climbing Goldilocks

Climbing Goldilocks

(Above) The truly everblooming yellow Climbing Rose! Gardeners from coast to coast have had the Floribunda Goldilocks for years and have loved its gorgeous golden color and its ability to bloom all summer long. Now this magnificent Rose can be enjoyed as a Climber! The buds are ovoid in shape, resembling miniature Hybrid Teas in form, and a rich golden yellow in color. They open gracefully to 3½ in. and last for a long time, for fresh new buds keep replenishing the overall effect of a golden yellow mass. Like the Floribunda, Goldilocks as a Climber also blooms in large clusters. It is extremely vigorous and hardy; it will grow 6 to 10 ft. in one year and will bloom the first year it is planted. Climbing Goldilocks looks well wherever a Climber is appropriate. Use it to grace an arch or to enhance a wall. Be sure to make a place for it in your garden. (Pl. Pat. #1090.)

Magnolias

Most Stately, Most Dramatic of All Flowering Trees

Magnolia Soulangeana. You need no longer admire the gorgeous spring blooms of the widely loved Saucer Magnolia in someone else's garden! Many of our plants are already budded; all are sturdy and will give you many years of enjoyment once they have become established in your garden. This magnificent variety, commonly called the Saucer Magnolia, bursts into glory early in the spring with a stunning display of 6-in. flowers that have generous, heavy-textured petals of glistening white with purplish or rose tones on the reverse side. One of the first trees to bloom in

the spring, Magnolias are literally covered with flowers even before the leaves appear. Later the foliage is broadly oval and a rich leathery green. It makes a very handsome ornamental tree, which under ideal conditions grows as high as 30 ft. A splendid tree for growing in smoky city areas. Good drainage rather than a rich soil is the prime essential for Magnolias. For best results apply fertilizer every two years. They are hardy in practically all sections of the country. If peach trees will live in your locality, Magnolias will do well there, too.

FAMOUS

GIANT DELP

HAPPINESS (*Left*) Exceptionally large individual florets of warm pink-lavender. Clear blue at the tips of the outer petals. The unusually large spikes are full, firm and sturdy—a joy to behold. We suggest planting in groups of 3 or more with Delphinium Enchantment for fine contrast. Has the vigor and hardiness of the Northern New York strain, with larger florets and greater mass effect. A beautiful addition.

\$1.25 each;
3 for \$3.15;
6 for \$6.25

GLORIOUS (*Above*) Deep royal purple, by far the darkest and richest of all Delphiniums. This is truly a breathtaking color. The long, beautiful spikes are all out-at-once in blooming; no shattering until the last buds are fully open. Stems are wiry and strong, holding the majestic spikes on proud display. The plant repeats quickly with its colorful bloom spikes and is always perfectly hardy. 4½ ft. tall.

\$1.00 each;
3 for \$2.50;
6 for \$5.00

PEACE (*Above*) Here is a handsome variety that is just as desirable as its name. Individual florets are 3½ to 4 in. across. The face of each floret is a clear white with a lovely cream bee. Blooms in June and July. If cut back immediately when it is through blooming, the plant will quickly give another crop of giant flowers. A beautiful variety to plant with other colors. You are sure to like it. Reaches a height of 4 ft.

\$1.50 each;

"ALL-OUT-AT-ONCE" SPIKES

Handsome, long-lasting, all-out-at-once, 20 to 30-in. spikes with giant all-double flowers closely set on towering 5-ft. spires. Four to six such spikes to a plant in June and July, repeating bloom in the late summer and early fall.

AN IMPROVED RACE

One of our chief aims in developing this new race was

ENCHANTMENT (*Above*) Light blue. True Delphinium-blue, with white eyes . . . the hybridists' dream. A giant double Delphinium with superb masses of bloom on all-out-at-once spikes. Striking in a white vase. 4 ft. tall.

85c each; 3 for \$2.25;

GUARANTEED TO BLOOM!

to provide trim and sturdy stalks not easily blown down by the wind . . . yet not cumbersome and stiff in bouquets. You will find that J&P Delphiniums do not need staking in most localities.

This Northern New York strain reaches these ideals and still has kept all the exquisite grace and charm of Delphiniums at their best. Plant them in threes, fives or dozens for dramatic color effects.

GAYETY (Not illustrated) A dainty color that is most pleasing—pinkish lavender with outer petals blue. Unique color display that will remind you of "lavender and old lace." Side shoots prolong the blooms for several weeks. 5 ft. tall.

85c each; 3 for \$2.25;
6 for \$4.25

PINK GLOW (Above) A large-flowered variety with the new dark rose-pink florets with lilac shadings. The flowers have white eyes. Blooms in June and July and again in August and September if properly cut back. 4 ft. tall.

\$1.50 each; 3 for \$3.75;
6 for \$7.50

FREEDOM (Above)

White, with black-and-white bees. The long-lasting spikes are set with large, double florets and bloom again in late summer if cut back after the early crop. Will "pep up" any garden, for it has real character. This variety is in great demand because it is an excellent color to accent a perennial border. Stunning in all-white bouquets or in combination with bright colors. 4½ to 5 ft. tall. Striking in groups or with other Delphinium hybrids.

85c each; 3 for \$2.25;
6 for \$4.25

DELIGHTFUL (Above)

Deep blue. The rare, real all-blue, in the darker shades so hard to get. Particularly effective because it is so good with other colors. It furnishes a glorious background for lower-growing flowers. 5 ft. tall. This is what you have in mind when you speak of dark, rich "Delphinium-blue." It is a glorious color badly needed in most perennial plantings. Be sure to cut back the plant after its first blooming period so that it will repeat later.

85c each; 3 for \$2.25;
6 for \$4.25

LOVELINESS (Right)

Immense, semi-double florets 3½ to 4 in. across. Each floret is a beautiful orchid-lavender color with a white center and accentuated on the far edges with tiny points of sea-blue. The full flower spikes furnish a dramatic accent in any group planting. Height 4 to 4½ ft. It will repeat rapidly in the summer months and will be lovely again in the fall. Superb for a border where its full beauty may be enjoyed. We recommend it highly.

NEW VARIETIES FOR 1960

A BROWN CRANE. Orange-tan with a flush of strawberry shading, a pleasing autumn color. Carnation shaped, with 5-in., full-petaled flowers, at least 3 in. thick. Medium tall plant blooms from end of Sept. until freezing. (Prop. Rights Reserved.)

B SNOWY EGRET. 5 to 5½-in., shaggy blooms. Brisk clean fragrance. Dark glossy foliage. Upright plant is medium tall, bearing these fresh cream-white blooms from the end of Sept. to frost. (Prop. Rights Reserved.)

C HORNED LARK. Large red bloom with a yellow base. 5-in. flowers are shaggy type. Medium tall plant blooms from end of Sept., peak of bloom is end of Oct. Deep cut foliage covers plant well. Excellent variety. (Prop. Rights Reserved.)

D WESTERN BRANT. A fiery red-orange reminiscent of western sunsets. Flat decorative flowers reach 4½ to 5 in. in diameter and are freely produced. Medium tall plant has excellent foliage and blooms from late Sept. to freezing. (Prop. Rights Reserved.)

E EVENING GROSBEAK. A flat, 5½-in. flower of a delightful new shade of yellow. Unopened center, slightly orange. Healthy, medium tall plant has rich foliage. Blooms end of Sept. to frost. (Prop. Rights Reserved.)

F PINE SISKIN. Extra large, 5-in. blooms of reddish-orange, almost dark orange-bronze. Thick flower. Wide petals, inner ones standing up almost straight. Very long lasting. Medium tall bush blooms from end of Sept. until frost. Produces abundantly. (Prop. Rights Reserved.)

1 DESERT QUAIL.

Lovely soft lavender-pink. The 5-in. flowers are decorative, flat and widespread. The 20 to 24-in. plants bloom the end of Sept. to frost. Foliage is fine cut and clean. A lovely color, both in the garden and for use in flower arrangements. (Pl. Pat. #1555.)

2 YELLOW WARBLER.

Large-flowering, shaggy type. Golden-butter-yellow blooms reach 5 to 5½ in. across. Good for cutting, combining well with any other color. Upright plant is of medium height. Blooms from Sept. to frost. (Pl. Pat. Applied For.)

3 CHIMNEY SWIFT. Good sharp, full, burgundy-red blooms are $4\frac{1}{2}$ in. across. Medium tall plant is compact. Uniformity of color outstanding. Extremely rich in bouquets and autumn gardens. Blooms early Sept. to frost. (Pl. Pat. #1889.)

4 PHOEBE. Golden tangerine buds open up to very pleasant, friendly tan flowers. A lively, lovely variety during its life— $4\frac{1}{2}$ in., larger if disbudded. The plant has compact growth reaching 32 to 36 in. in height. Excellent for cutting. Long lasting. Blooms Sept. 15. (Pl. Pat. #1467.)

5 CHICKADEE. This lovely orchid-lavender Mum is very decorative both outdoors and indoors. The 5-in. flowers start blooming about Sept. 30. The 30-in. plant is very sturdy and resistant to insects and disease. Blooms are long lasting and keep well when cut. Recommended for every garden. (Pl. Pat. #1571.)

6 ICELAND GULL. The $5\frac{1}{2}$ to 6-in. flowers are breath-taking in their beauty. Center of the flower is soft light yellow, while the outer petals are shaggy and pure white. The $2\frac{1}{2}$ -ft. plant carries many blooms from Sept. to heavy frost. Very attractive and desirable. (Pl. Pat. #1666.)

7 ORCHARD ORIOLE. Blooms in late Sept. through early Oct. Masses of rich orange-bronze flowers reach 5 in. in diameter and are produced on 30 to 36-in. stems. Popular for arrangements with its typically autumn coloring. (Pl. Pat. #1461.)

8 GOLDEN COCKATOO. Here is the most spectacular yellow garden Mum of all time! The 5 to $5\frac{1}{2}$ -in. flowers are a glowing Indian yellow. 2-ft. plants bloom from late Sept. and will brighten up your garden until frost. Dark foliage is disease resistant. (Pl. Pat. #1638.)

9 THRASHER. One of the choicest and earliest of the autumn-colored Bird Mums. Burnt-orange to brown, a real fall color. Combines well with yellow and gold varieties. The $4\frac{1}{2}$ -in. flowers come in great profusion on 25 to 30-in. plants. Blooms middle of Sept. to frost. (Pl. Pat. #1553.)

10 SAGE GROUSE. A most attractive new color. When opening, it is strawberry-coral, with a golden buff reverse. The whole flower is slightly lighter when fully open, very soft and subdued. 5-in. flowers are borne on 30-in. plants. Blooms from early Oct. until heavy frost. (Pl. Pat. #1798.)

GIA

A BALTIMORE ORIOLE. A golden yellow flat decorative flower with incurved centers and outer petals lightly reflexed at the finish. Petals are slightly lighter on the reverse side of the 5½-in. flowers. Grows 30 in. tall. Blooms Sept. 20 to frost. A delightful, refreshing color. (Pl. Pat. #1636.)

B TOWHEE. Starts red with reverse of petals golden; 3½-in. flowers soften to a gold-tipped maroon and finish a lovely red-bronze. Grows about 2½ ft. tall, covered with large, full, pompon-shaped flowers. Blooms Sept. to frost. (Pl. Pat. #1169.)

C SEAGULL. The giant size and airy grace of this new Mum will make it an immediate favorite. 5-in. flowers. Compact cream-colored centers with pure white outer petals. Blooms early Sept. Height 24 to 30 in. This new variety is one of the largest of this new J&P strain of Mums. (Pl. Pat. #1130.)

D SWALLOW. Beautiful soft coral-pink opening into a double, buff-colored flower, reaching about 5 in. across. Lovely irregular petals have a pleasing informal effect in all stages. Blooms from early Sept. to frost and grows to 3 ft. Ideal as a cut flower. (Pl. Pat. #1106.)

E VIRGINIA RAIL. Brown is the dominant color until the flower is almost fully open, when it blends into a clear pastel tan. 4½-in. blooms are produced freely from the middle of Sept. to frost. Blends easily with any color scheme. (Pl. Pat. #1676.)

F RED POLL.

Deep bronze-red, 5-in. flowers have a slight touch of pure bronze on the tips of the unexpanded petals. The petals are of light texture, with a reverse of buff-yellow. 2-ft. plants bloom from Sept. 27 to frost. Dark, fine-cut foliage. (Pl. Pat. #1680.)

G TITMOUSE. The color is a clear lavender-pink with the lavender dominating at the finish and the silvery grey foliage offering a lovely contrast. Flowers are full and thick, measuring 4 to 4½ in. in diameter. The plant is 24 in. tall. Blooms in early Oct. A favorite for cut-flower use. (Pl. Pat. #1630.)

H TEAL. These beautiful silver-pink blooms reach a diameter of 4½ to 5 in. The 2-ft. plants bloom from Sept. 27 until frost; they are covered with graceful light foliage. The color appears always buoyant and gay, whether in the house or the yard. Broad plant has strong stems. A fine Mum. (Pl. Pat. #1679.)

A gay orange-bronze Mum with golden bronze on the reverse of the petals. The $4\frac{1}{2}$ -in., double flowers are semi-incurred in shape. 27-in. plants start blooming the end of Sept. The abundance of blooms sometimes necessitates staking. (Pl. Pat. #1657.)

J SANDPIPER. A $5\frac{1}{2}$ -in. decorative flower in the lovely pastel autumn shade of strawberry-bronze. This is the largest of the Bird Mums. A sturdy, very free-blooming plant of medium height with excellent foliage. Blooms Sept. 20 to frost. (Pl. Pat. Applied For.)

K TANAGER. As pretty and cheery as its namesake. 4-in., bright crimson-cherry-red flowers. Free blooming! Truly the leading red Mum, always rich and warm in tone—not dull looking. Blooms from Sept. through Oct. . . . very resistant to frost. Grows $2\frac{1}{2}$ ft. (Pl. Pat. #1129.)

L CANARY. Clean-cut color of the blooms makes this Mum one of the best yellows available. The perfectly symmetrical, $4\frac{1}{2}$ -in. flowers are beautiful rich golden yellow. Reaches 24 to 30-in. height. It's an excellent keeper when cut for indoors. Truly a very outstanding variety. Blooms Sept. and Oct. (Pl. Pat. #1113.)

M CARDINAL. The largest of the early hardy red Chrysanthemums— $3\frac{1}{2}$ to 4-in. flowers. Half-open blooms are deep red, softening to bronze-red. $2\frac{1}{2}$ to 3 ft. Blooms Sept. to frost. Your opportunity to get another shade of red in early Chrysanthemums. (Pl. Pat. #1165.)

1 CAROLINA PARAKEET.

A gay orange-

N WOODPEEWEE. Broad flowers, as much as 5 to $5\frac{1}{2}$ in. in diameter, of graceful, somewhat informal shape. In color they are a lively pink—pleasing anywhere, but especially liked for bouquets. These attractive blooms last 10 days to 2 weeks when cut. The 20-in. plant blooms from Sept. 30 to severe freezing weather. (Pl. Pat. #1824.)

O PHEASANT.

Vibrant autumn bronze. Flower is $4\frac{1}{2}$ to 5 in. across. Irregular petals are graceful and breath-taking. Center of warm burnt-orange softens to pinkish bronze, finally a tawny yellow on the edges. At all stages the flowers are extremely rich looking. They give a seasonal look to the autumn garden as they progress from one fall tone to another. Blooms well from Sept. 15 to frost. 3 to $3\frac{1}{2}$ ft. (Pl. Pat. #1162.)

JACKSON & PERKINS MODERN

TREE ROSES

THE CROWNING ACHIEVEMENT OF THE GARDEN WORLD . . .

If you love Roses and would see them at the pinnacle of perfection, here is an opportunity to grow the "Queen of Flowers" in unequalled excellence. *The blooms produced on Tree Roses are superior in quality to those on regular bushes.* Modern Tree Roses are the crowning glory of the plant world for giant size, exquisite form, brilliance of color and abundant bloom from June to frost. There's a place for Tree Roses anywhere . . . they make informal gardens more radiant, small gardens more intimate, and formal gardens more stately. They present a breath-taking picture in any landscape.

J&P Tree Roses Are Better Because:

J&P Modern Tree Roses are grown on a special strain of Multiflora root and stem (trunk) for best results in your garden. This is a strain that transplants easily, is hardy and handles well for winter protection. These trunks are 3½ ft. tall, with bushy, well-balanced heads. Trunks of J&P Tree Roses increase in diameter in proportion to the top, an essential for success and long life in Tree Roses. They are not subject to borers and other ills common in stems of earlier kinds.

\$6.75 each; any 2 for \$12.50; any 6 for \$35.50

Transportation prepaid—nothing further for you to pay. These prices include safe, expert packing. Guaranteed to reach you in good condition.
